

# HIGH PERFORMANCE FLAMELESS SOLUTIONS

FOR PROJECTS IN WHICH YOU CANNOT USE A FLAME

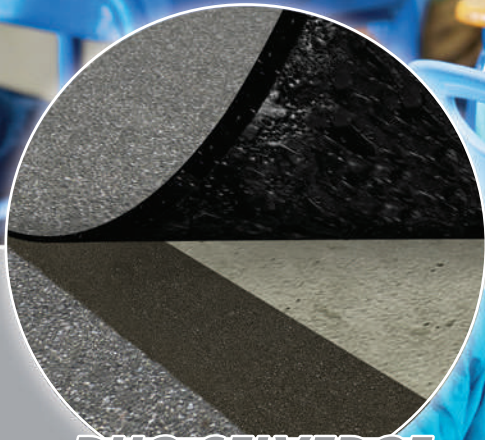

Elimination of propane tools

Several possible combinations of SOPREMA products

Platinum Privilege Warranty for up to 20 years

Superior waterproofing thanks to Duo Selvedge Technology

**DUO SELVEDGE**  
TECHNOLOGY

Since 1908, SOPREMA has specialized in the manufacture of waterproofing products for the construction and civil engineering fields.

SOPRALENE STICK HR GR is THE ideal solution for projects in which you cannot use a flame. Used with other SOPREMA products, this cap sheet membrane demonstrates its versatility by providing multiple configurations of systems tailored to the needs of the sites on which security is a premium issue (schools, hospitals, etc.).

## BENEFITS

- Elimination of propane tools
- Only self-adhesive cap sheet membrane to meet ASTM D6162 Type II
- Several possible combinations of SOPREMA products can be used
- Solutions adapted for projects in which using a flame is impossible
- Platinum Privilege Warranty for up to 20 years
- Superior waterproofing thanks to Duo Selvedge Technology
- Incomparable dimensional stability due to composite reinforcement
- Excellent resistance to elongation and puncture due to composite reinforcement

## DUO SELVEDGE TECHNOLOGY

For the safest installation, SOPRALENE STICK HR GR is provided with DUO SELVEDGE, a unique technology developed and patented by SOPREMA in 2004, especially adapted to this cap sheet membrane.

On the full surface of DUO SELVEDGE, 50% is sealed with self-adhesive. The remaining 50% is then safely sealed with a hot air gun. This provides an additional waterproofing safety at the laps.

TECHNOLOGY

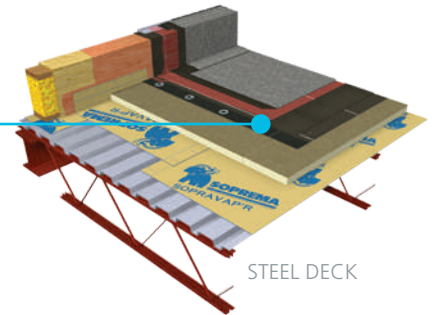

SOPRALENE STICK HR GR

## CAP SHEET MEMBRANE SOPRALENE STICK HR GR

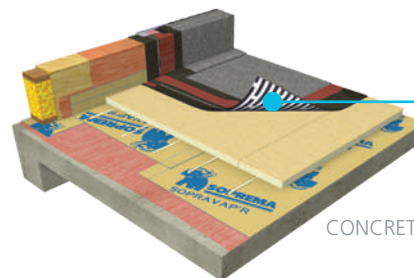

- A self-adhesive SBS modified bitumen membrane part of a flameless two-ply roofing system
- Covered with granules and self-adhesive underface protected by a silicone coated removable plastic film
- With a composite reinforcement
- A versatile membrane that can be used with all base sheet membranes shown below:

BASE SHEET  
**SOPRAFIX 640**  
(mechanically fastened)

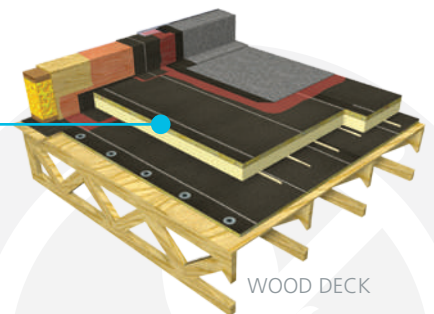

STEEL DECK

BASE SHEET  
**COLVENT 840**  
(self-adhesive)

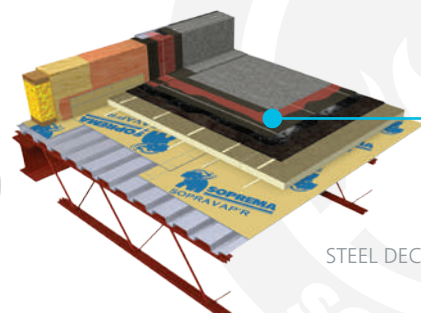

CONCRETE DECK

BASE SHEET  
**COMPOSITE PANELS**  
(e.g.: XPRESS ISO Sanded)

WOOD DECK

BASE SHEET  
**COLPLY 410**  
(cold applied)

STEEL DECK

## SOPRA MATIC

The automatic hot-air welder SOPRAMATIC is the perfect tool to bond DUO SELVEDGE on the SOPREMA membranes.

- Uniform and constant fusion
- Nozzle adapted to the dimensions of DUO SELVEDGE
- Rapidity of execution
- Ideal for large surfaces
